ROADKIT

NEW

OPERA

24V

For sliding gates weighing up to 400 kg.

Practical

Built-in control unit, removable by practical guided plug-in connector, built-in radio receiver, can memorise up to 100 codes.

Advanced

Decelerations can be managed directly from the control unit and gate movement speed and force can be adjusted.

Smart, thanks to obstacle detection and automatic programming of operating times.

Self-diagnostics with indications via the flashing light.

Reliable

Control unit and PS124 buffer batteries (optional) housed in the Road, practical plug-in connections.

Simplified programming via 0-View

Thanks to compatibility with the Opera system, the automation system can be managed, programmed and controlled even at a distance, with considerable savings in time.
